

Appel

pour l'interdiction des Pesticides Extrêmement Dangereux

Des décennies d'expériences ont montré qu'en dépit des nombreux programmes d' «utilisation sécuritaire», «l'utilisation sécuritaire» des Pesticides Extrêmement Dangereux (HHPs) n'est pas possible. Les Hommes, les animaux domestiques, la faune et l'environnement continuent de subir d'importants préjudices provoqués par les Pesticides Extrêmement Dangereux (HHP). Après des décennies d'échecs qui ont vu des millions de morts dans le monde, de nouvelles politiques sont nécessaires pour stopper les intoxications par les pesticides. L'élimination progressive et l'interdiction des Pesticides Extrêmement Dangereux, accompagnées de nouvelles politiques en faveur des alternatives, peuvent apporter des changements vers un monde sain et durable pour tous.

Nous, organisations soussignées, appelons les gouvernements et les entreprises à prendre des mesures concrètes pour l'interdiction progressive des Pesticides Extrêmement Dangereux et leur substitution par des alternatives basées sur les écosystèmes.

Organisations signataires

A propos de PAN

Pesticide Action Network (PAN) est un réseau de plus de 600 organisations non-gouvernementales, d'instituts et d'individus dans plus de 90 pays travaillant à la substitution de l'usage des Pesticides Extrêmement Dangereux par des alternatives écologiquement saines et socialement justes. PAN a été créé en 1982 et a cinq centres régionaux indépendants collaborant à la mise en œuvre de ses projets et campagnes. www.pan-international.org
