

Appello

per la messa al bando dei pesticidi ad alto rischio (PAR)

L'esperienza accumulata nei decenni ha dimostrato che nonostante numerosi programmi di "uso sicuro", l'"uso sicuro" dei pesticidi ad alto rischio (PAR) non è possibile. Le persone, gli animali delle fattorie, la fauna e flora e l'ambiente continuano ad essere considerevolmente affetti dai PAR. Dopo anni di fallimenti, che hanno portato alla morte di milioni di persone nel mondo, è necessario implementare nuove politiche per fermare l'avvelenamento dai pesticidi. Il ritiro e la proibizione dei PAR, in parallelo a nuove politiche in supporto a pratiche alternative, possono portare ad un mondo più salutare e sostenibile per tutti noi.

Noi, i firmatari, facciamo appello ai governi e alle aziende affinché si prendano azioni concrete verso il ritiro e la proibizione dei PAR, e la loro sostituzione con alternative ecosistemiche.

Firma l'appello!

Nel 2006, il Consiglio per l'Alimentazione e l'agricoltura (FAO) delle Nazioni Unite, raccomandò una progressiva messa al bando dei pesticidi ad alto rischio (PAR). Attuando nell'ambito delle raccomandazioni del Consiglio, e consapevoli che non si è fatto ancora abbastanza in merito, incoraggiamo le organizzazioni, istituzioni e imprese a sottoscrivere l'appello.

Le organizzazioni possono firmare l'appello mediante:

invio di una email a susan.haffmans@pan-germany.org riportando le seguenti informazioni:

- nome dell'organizzazione:
- paese :
- referente:
- email del referente:

Più saranno le organizzazioni che sottoscriveranno l'appello, più forza avrà questo appello contro l'uso dei pesticidi ad alto rischio e per l'adozione di alternative agroecologiche.

Aderisci!

Potete usare questo appello con la lista delle organizzazioni firmatarie per sostenere la vostra attività per la eliminazione dei PAR; e incoraggiare organizzazioni, istituzioni, e imprese non solo a firmare questo appello ma anche a sviluppare un piano di azione per le dismissione dei PAR, con le relative priorità, tempistiche e misure di azione concrete.

PAN International Regional Centers supporterà queste iniziative dove possibile.

Chi è PAN

Pesticide Action Network (PAN) è un network composto da più di 600 organizzazioni non governative, istituzioni, e individui, in rappresentanza di più di 90 paesi, che lavorano al fine di sostituire i pesticidi rischiosi per la salute, con alternative ecologicamente e socialmente sostenibili. PAN è stata fondata nel 1982 ed ha cinque Centri Regionali indipendenti, che lavorano in collaborazione tra loro per implementare progetti e campagne
